👤 About

I am a passionate and creative full-stack developer based in Colombia 🇨🇴

I consider myself a proactive worker, being able to work with a team, under the terms of respect and support, and helping build diverse, inclusive and safe and sound workplaces. I also like challenges where I can gain new skills or improve the existent ones.

🖥 Experience

Software Technologist @ Matter Supply Co.
Remote - September 2020 ~ Present

Development Technical Lead @ BPSmart S.A.S
Remote - January 2020 ~ August 2020

I led a small team of 6 junior developers and I worked on architecture planning, tasks assignment and helping them learn and gain new skills while they develop and build the company software products. Additionally, I partially worked on the development process of some of those products too as a full-stack developer.

Full-Stack Developer @ Servex S.A.C.
Remote - September 2018 ~ December 2019

I worked on multiple backend and frontend apps using the MERN stack and also python. I helped creating the first version of a company product that isn't public yet.

Mobile Developer @ Vezio Inc.
Remote - Jul 2018 ~ August 2018

I had the responsibility of creating the initial iOS app for the company's product and making it as useful and featured as the previous developed Android app, and then continue working on both to make them grow as needed.

Android Developer @ Vezio Inc.

Remote - Oct 2017 ~ May 2018

As the first Android developer in the team, I had the opportunity to start the Android app development and take it from the idea to the final product, reaching most of features for the initial version and making it almost as functional as the companion desktop and web apps.

Freelance Developer

Remote - Jun 2015 ~ Present

I have created a few Android apps as personal projects and also was contacted to do a couple design related works, mostly focused on Material Design iconography. I am also open to new interesting projects that could help me continue learning.

🎓 Education

Computer Science BSc.

Universidad Pedagógica y Tecnológica de Colombia UPTC;

Sogamoso, Colombia – 2015 ~ Present

Mechatronics Technologist

Servicio Nacional de Aprendizaje - SENA;

Sogamoso, Colombia – 2013 ~ 2015
